SUMMARY

Enthusiastic Computer Science student specializing in AI and Machine Learning, with strong skills in programming, data structures, and web development. strong willingness to learn and apply core programming and problem-solving skills. Actively building projects to gain practical exposure and improve technical proficiency.

EDUCATION

Bachelor of Technology (B-tech) vasireddy venkatadri institute of technology(VVIT) CGPA - 9.245	September 2023 – May 2027 guntur, India
Higher Secondary grade Narayana junior college 983/1000	2021 – 2023 guntur, India
Narayana English medium school 587/600	2021 guntur, India

PROJECTS

To-Do List Web Application with Alert Sound

Technologies: Flask, HTML, CSS, JavaScript

- Designed and developed a dynamic to-do list application with task management features including add, edit, and delete functionality.
- Implemented **due time alerts with sound notifications** to boost task tracking and productivity.
- Applied **Flask for backend routing** and templating with a responsive frontend using HTML/CSS.
- Future plans include adding user authentication and cloud-based task persistence.

Outcome: Improved personal productivity and gained hands-on experience in full-stack development.

SKILLS

C | Java | Data Structures and Algorithms | Html | CSS | JavaScript |
Git, GitHub, IntelliJ IDEA, VS Code

INTERNSHIP

Former Amazon SDE intern - Contributed to the Competitive Management Tool (CMT) team, focusing on optimizing the internal tool to enhance Amazon's operational efficiency and user experience. - Engineered and deployed feature enhancements and critical bug fixes using Java/Spring (backend) and TypeScript/JavaScript/HTML/CSS (frontend), ensuring high code quality. - Managed seamless production deployments with internal build tools; optimized AWS S3 configurations for data indexing and gained hands-on experience with AWS AppConfig. - Collaborated effectively within an agile development team, participating in code reviews, daily stand-ups and contributing to a highly collaborative engineering culture.	May 2025 – July 2025 Bangalore, Karnataka
---	--

CERTIFICATION

- L4G gen AI google certification - worked with Real-world projects that apply AI technologies in various domains.

ACHIEVEMENTS

- Achieved top 5% ranking in academic performance among 200+ students
- participated and got selected in Smart India hackathon conducted in college for internal screening , presented our idea and prototype
